

Digitizing The Cameroonian Consulate Services

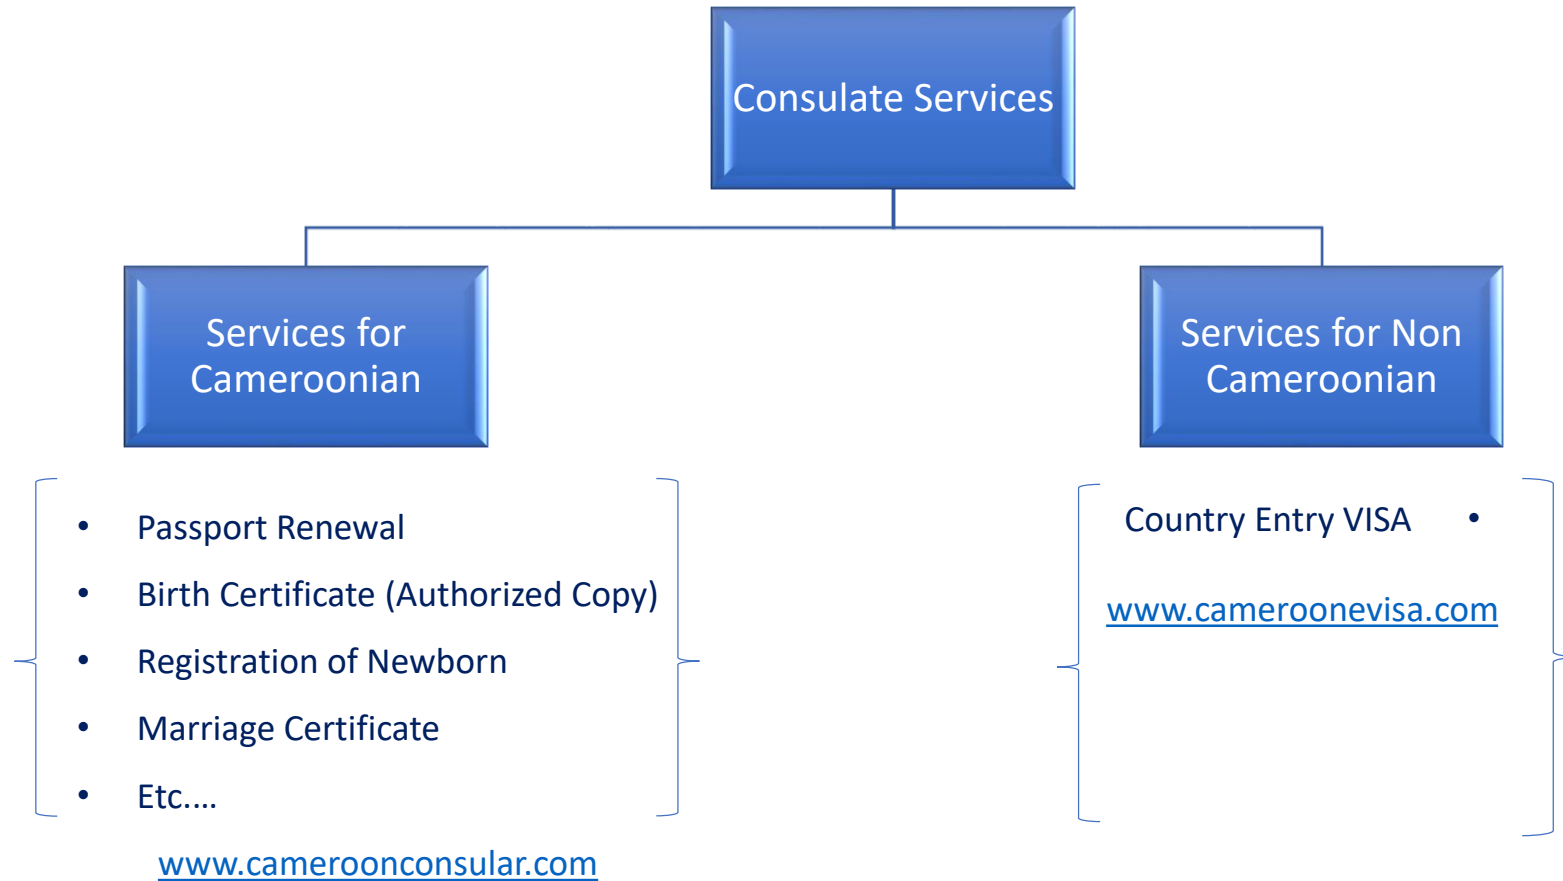

By: Dr. MOHAMADOU Labarang
The Ambassador of Cameroon in Egypt

Agenda

- Consulate Services
- Digitization Objectives
- The Systems Digitization
- The Consulate System (Before & After)
- Impact on Cameroonian Digital Economy

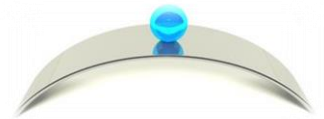

Consulate Services

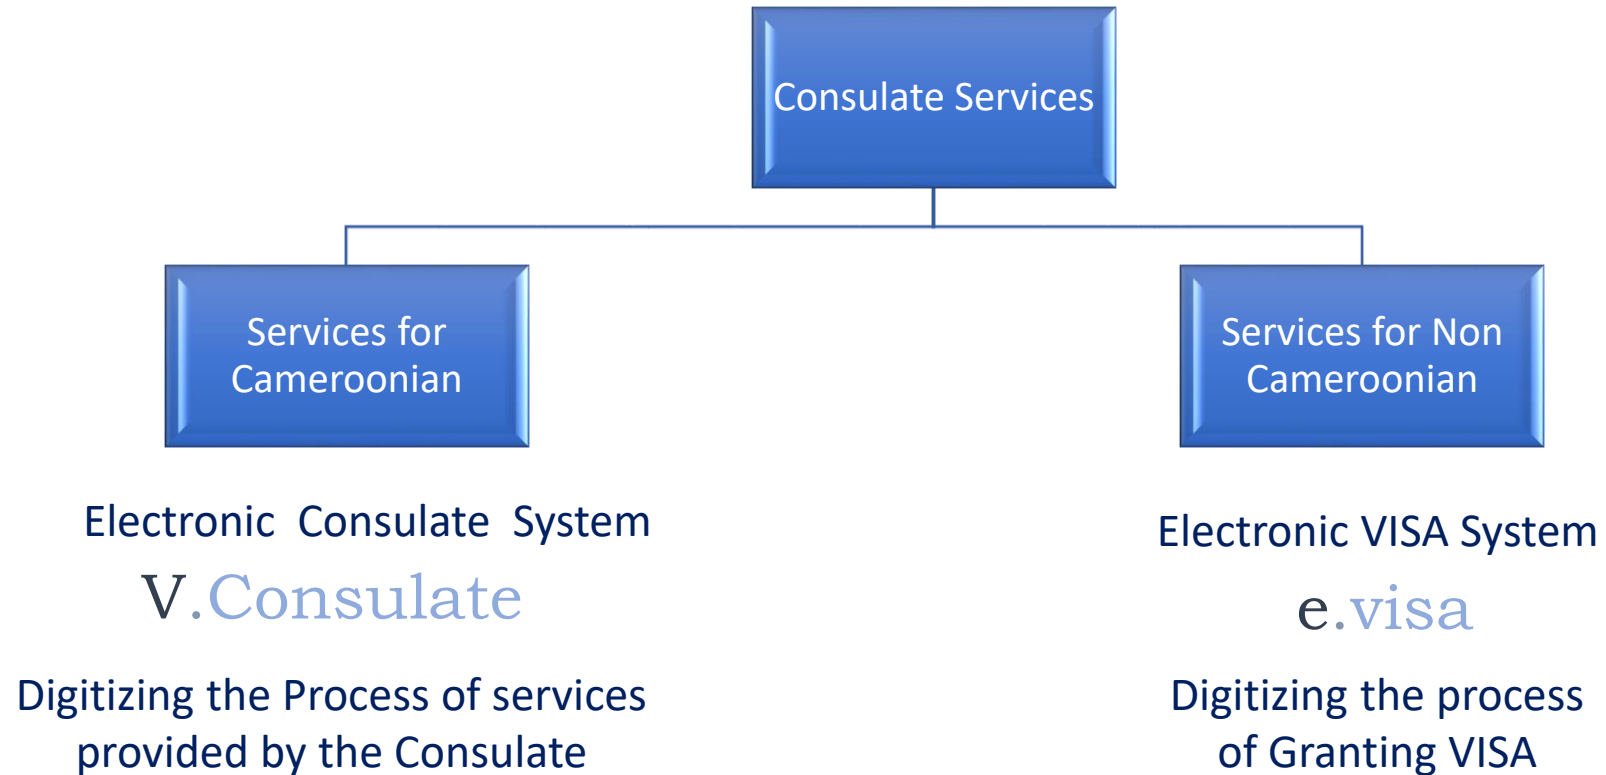

The Digitization Objectives

- To create a balance between Granting and Rejecting permits
- To monitor the process in real time
- To assign each task to specific credentials
- To transform the systems' nature from Reactive to Proactive
- To create a planning capacity inside the Cameroonian consulates
- To control the revenue collection and the permission of service fees exemption
- To increase the systems' transparency

The Systems Digitization

www.cameroonevisa.net

Before...

- Fuzzy process
- Reactive system
- Human based system
- Lack of security
- No Time Planning
- Difficulty in archiving documents

After...

- Clear and defined process
- Proactive system
- Process Driven system
- Process Monitoring
- Time planning and scheduling
- Electronic Archiving

Impact on the Cameroonian Digital Economy

Digitizing The Cameroonian Consulate Services causes a

1. E-visa facilitation leads to

- increase in the number of tourists and their spending
- Create additional jobs and services in the tourism sector
- Increase in the contribution of tourism and travel industry in the Cameroonian GDP

2. Improving the Image of the country leads to

- Increase in the Direct foreign investments

Thank You
